## ■ INSTALLATION

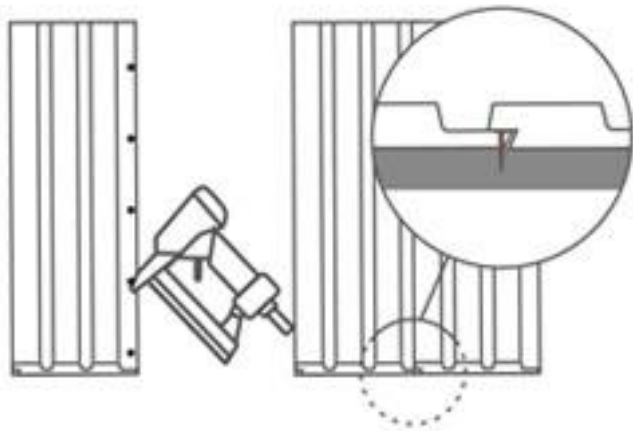

**1** Prep-work with plaster board or plywood is recommended before the construction. Please remove wallpapers on the walls before the construction.

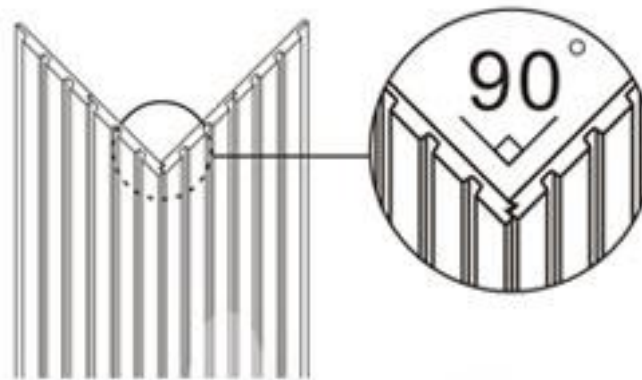

**2** Circular saw can be used for cutting.

**3** Apply nail free glue on the back of wall panel.

**4** Wall panel can be installed in both horizontal and vertical direction. Apply air-tacker on the edge of the tonue to hide the pin-marks.

**5** For corner, combine the two grooves.

**6** Coordinating mouldings can be used for clean and nice finish.
